PROFESSIONAL EXPERIENCE

Information Systems Manager

Chesapeake Bay Governor's School for Marine and Environmental Science, Warsaw, VA, 2017–Present

Oversee multiple information systems, including Schoology SIS, Knack databases, and NWEA MAP testing.

- Manage student and faculty accounts in Schoology student information system; expand use of Schoology beyond our initial limited implementation; lead faculty workshops
- Implement Knack database management system to supplement our current student information system
- Manage NWEA MAP administrator accounts for 14 counties served by the governor's school; explore and implement applications of MAP testing data for student assessment

Webmaster

Chesapeake Bay Governor's School for Marine and Environmental Science, Warsaw, VA, 2013–Present

Develop, maintain, and update content for the school website. Troubleshoot problems as necessary.

Mathematics Teacher

Chesapeake Bay Governor's School for Marine and Environmental Science, Warsaw, VA, 2011–Present

Teach dual-enrollment courses in calculus and statistics at a regional public magnet school. Previously taught algebra II and pre-calculus.

- Designed current governor's school statistics curriculum.
- Led teacher development session on classroom applications of Arduino hardware and software. ^[1]_{SEP}
- Led grant-writing for three successful grants.
- Offer technology support for the Warsaw campus.

Master Teacher, NASA Space Coast Scholars Program

NASA VA Space Grant Consortium, Hampton, VA, 2015–2017

Taught an online, STEM-based curriculum to high school students across Virginia and a week-long Space Coast Summer Academy at Wallops Island.
